JUST A PASSENGER.
"This world it keeps a-spinnin'
As fast as it can go;
We wonders what it's rushin' to,
But no one seems to know.
A-bazin' out so fine;
De stahs dey is de signal lamps
A-gleamin' 'long de line.
I ain't axin' questions
'Bout how de train is run;
I's simply gwinter stick until
My little journey's done.
It ain' no use to worry,
Whatever may betide—
I's only jes' a passenger,
An' mighty glad to ride."

An attempt was made at Lexington Tuesday night to assassinate Captain B. J. Ewen. Twelve shots were fired at him as he passed an alley in Walnut street.

Rev. J. S. Sims will preach the dedicatory sermon of the Mt. Vernon M. E. Church, South, located four miles East of Falmouth, on Sunday, November 23d.

As usual, there are quite a number who are ready to serve as policemen. Among them are Messrs. Rosser, Thompson, Ryan, Senteny, Conard, Easton and Ingram.

Mr. Crenshaw Slack, whose barn was burned Tuesday night, places his loss at \$2,700, with no insurance. A lot of farm machinery and some hay were destroyed in the fire.

J. Fred Frank, the professional baseball player of Ashland, who played in the Little Rock Club in the Southern League the past season, is under contract, at an increased salary, to play with Little Rock again next year.

Returns from the state of the vote on the Constitutional Amendment are meager and it is impossible to tell the result. Secretary Clarke of the Executive Committee says the chances for and against its adoption are about even.

Returns indicate the election of Hon. S. D. Rigdon for Representative from Bracken county, W. J. Worthington from Greenup, Robert C. Hanna from Lewis, Paul Hefflin from Fleming and Thomas M. Sharp from Nicholas and Robertson.

As a result of the retrenchment policy adopted by almost every railroad in the East, the C. and O. has reduced the operating expenses of its shops at Huntington \$6,000 a month. The working day at the shops was shortened from ten to nine hours and fifteen men whose aggregate wages amounted to \$1,000, were discharged.

Our fine Clocks are on sale again; see our window. \$6.50 Clocks now \$3.75; \$7.50 Clocks now \$4; \$8 Clocks now \$4.75; \$9 and \$10 Clocks now \$5 and \$6. We are selling these Clocks for less money than they can be bought anywhere. All warranted.
MURPHY, the Jeweler.

Mrs. J. J. Dickey of Simpsonville, formerly of Washington, was elected President of the Woman's Home Mission Society of Kentucky Conference M. E. Church, South, at the recent meeting at Carlisle. Mrs. Mary Rapp of Sharpburg was elected Secretary of the Maysville District and Versailles was chosen as the meeting place in 1904.

"The Devil's Auction," at the Opera-house last evening was, as on its former appearance here, a very fine production and much appreciated. Many new features are with the show this season, which add to its merits. The scenery carried by the company is magnificent, being among the handsomest ever seen on the stage of Washington Opera-house.

There seems to have been an anti-election arrangement between those representing the white ticket and those of the blue, whereby M. P. Marsh was to be the Secretary of the former and Hal C. Curran of the latter in the event of their success at the polls. Both tickets had selected good men for the position and whoever won the place was sure of being occupied by a competent man. Now that the Blues have won we suppose that Mr. Curran will be the Secretary and the honor could not be more honorably bestowed than in the selection of this competent and worthy young man for the place.

WANTED.

Good, reliable boy in the First Ward, to deliver papers. Apply at this office.

The Fleming Fiscal Court has appropriated \$4,000 to repair the County Jail.

Mr. Harris Alexander left this morning for Ashland, where he is employed in the insurance business.

Mrs. Mary George Harris of Carlisle has taken up her residence with her daughter, Mrs. Andrew Curtis, in this city.

Mr. Harry Ort, who came home to vote, returned this morning to Catlettsburg, where he is employed for the time being.

Mr. Martin Durrett of Covington is mentioned as the next Master Commissioner under Judge McD. Shaw, just elected at Covington.

The following have been granted increase of pensions: James G. Britton, Northfork, to \$12 per month from June 17th, 1903; George Parker, Northfork, from June 10th, 1903, at the rate of \$10 per month. Major Hutchins secured these increases.

Secretary of State Hill has certified the nomination of D. C. Edwards as the Republican nominee for Congress in the Eleventh District. Mr. Hill recognizes the District Republican Committee as the governing authority. It designated Edwards as the nominee Monday.

The fall term of the United States Circuit and Federal Courts will convene in Richmond Monday, with Judge A. M. J. Cochran presiding. The docket is a large one. The session will be the first held in the new Government Building, which has just been completed.

Mr. Samuel Ellis Rigg of Greenup and Miss Marcella Cullen of this city will be married this evening at 8 o'clock in the parlors of the officiating clergyman, Rev. Father P. M. Jones. Mr. Rigg is the Private Secretary of Congressman Kehoe, while the bride is one of Maysville's popular and good looking young ladies.

Tuesday night Harry Barnes, colored, filled up on mean whisky and while passing down Second began firing his revolver indiscriminately. That no one was killed or seriously wounded is a fortunate circumstance. He was arrested by officer Rosser and yesterday in the Police Court Judge Whitaker gave him \$50 and costs for his amusement.

SEND DELEGATES.

Each Sunday-school in Mason county is expected to be represented at the County Convention by the Superintendent and one delegate. A report and contribution is expected from each School. Prof. E. A. Fox, State Secretary, will be present. An interesting program has been arranged.

MARRIAGES.

Mr. John L. McCord of Fleming county and Miss Fannie B. McMahan of Nicholas county were married in the County Clerk's office this morning, Judge C. D. Newell officiating.

DEATHS.

Mrs. ELIZA BEASLEY.
Mrs. Eliza Beasley, who has been seriously ill for several months, died at 8 o'clock this morning at her home in Sutton street, aged 71. She was the widow of Morgan Beasley, and surviving her are two children, Miss Nannie Beasley of this city and Mr. Ezekiel Beasley of Richmond, the well known Postal Clerk on the L. and N.

Mrs. Beasley was a member of the M. E. Church, and was one of the city's good women. The arrangements for the funeral have not yet been completed.

TUESDAY'S ELECTION.

Returns Slow in Coming in, and Majorities Not Yet Known.

Beyond the fact that nearly everything went Democratic, little has yet been decided by the returns of the election held Tuesday.

The majority of Hon. W. H. Cox, Senator in the Mason-Lewis District, will be between 300 or 400, while the election of Judge Harbeson is claimed now by about only 30.

About the only thing sure is the Judicial election of Hon. Ed Daum for Commonwealth's Attorney.

The Mason County Board of Election Commissioners will meet today to go over the vote, and the official figures will be given in a day or so.

In the race for Railroad Commissioner in the Third District, Hon. R. K. Hart of Fleming thinks he has been elected by about 1,000, with several counties to be heard from.

R. B. LOVEL.

THE ORIGINAL PRODUCTION.

"In the Palace of the King," a powerful romantic story of love and intrigue in the days of 1570 in Old Madrid, is booked for production at the Washington Opera-house on Monday, November 16th, with the beautiful American actress, Miss Helen Grantley, in the leading role. The play, dramatized from F. Marion Crawford's novel of the same name by Lorrimer Stoddard, is the vehicle in which Miss Viola Allen starred for two seasons and which ran for two hundred nights in New York City. Miss Grantley has surrounded herself with a large and competent company and carries the original New York production including six sets of massive scenery.

Fresh Oysters received daily at G. H. Heiser's.

The new Government Building at Richmond has been completed.

Judge Cochran will make a talk at the First Presbyterian Church Sunday night on Palestine, using a large illustrative chart of the land. This will fitly close the county Sunday-school Convention and will be of interest to all classes of our citizens.

A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge or weaken, but cleanse and strengthen. Sold by J. Jas. Wood & Son, Druggists.

Important SALE!

Hats sufficiently ample in variety to suit every taste and incidentally to match any gown. Hats at prices that do them little more than half justice. Every hat in the lot a New York copy of the finest Parisian models. If you've bought your winter hat you can afford another at this remarkable price-cut. A visit to our millinery department won't require much effort and it will repay you a hundred fold by the opportunity afforded to buy hats at prices inconceivably low.

MR. HARRY BERESFORD.

There are many delightful bits in "The Professor's Love Story," J. M. Barrie's wonderful play in which Harry Beresford will appear here soon, which might have been taken out of the real life of this clever artist. The play is by the author of "The Little Minister," in which Maude Adams starred so many years. The same writer is also responsible for "The Admirable Crichton," which John Hare so successfully produced in London. Mr. Barrie was also the author of "Quality Street," Maude Adams's latest success, and who will star again in "Little Mary," the latest play from this gifted writer's pen.

The great advantage you have in buying from us is that there is a certainty of satisfaction. If you are displeased we don't try to persuade you're mistaken or insist we are right and you are wrong.

**WE PROVIDE THE CHOICEST STYLES,
OUR CLOTHING IS SKILLFULLY TAILORED,
WE EXERT EVERY CARE AS TO FIT,
WE SELL REASONABLY CHEAP!**

On account of advantage gained by our large purchasing power; yet with all that, if we fail to please you after you have taken the goods home we cheerfully exchange or if you desire it return the money. This makes our store a safe place to deal in. Our Men's and Boys' Shoes certainly must give satisfaction. The growth of our Shoe Department is phenomenal. This proves that the public appreciate our providing them with the Best Shoes made in the country.

THE HOME STORE. D. HECHINGER & CO.

MEN WHO WEAR Walk-Over Shoes!

—and their name is legion—find that the principle underlying their manufacture is quality and nothing but quality. The phenomenal growth of this line substantiates the statement that the Walk-Over is today, and always has been, the best shoe for the price at which it is sold—

\$3.50 and \$4.

Nothing but perfect material and workmanship enter into its composition. A multiplicity of sizes, shapes and styles, brought down to the present, cover every possible demand. Two prices only, remember, \$3.50 and \$4.

THE BEE HIVE! A Doll Sale and a Reward.

22 1/2 inches high, the best kid body, bisque head, hair parted in the center and a doll that sleeps is a faint description of the doll that we now have on sale.

PRICE \$1.19!

And it is the best \$2 Doll in the United States today.

THE REWARD! As a proof that these dolls cannot be duplicated at this price in this country we will give to the first person a **\$10 GOLD PIECE** that can prove that any store in the United States is selling a doll as large as ours, as fine and as good in every respect and the same quantity to sell that we have. **THE HOME OF THESE DOLLS** is a little village in Germany, where an old German named Kurtz, famous for doll making, his father and his father's father made dolls, and now his children and his grandchildren are learning. We gave the order to his son to send them direct to us, and now you wonder how we out found this little doll home; but that's our secret. The price is \$1.19 for the best doll in this country, and it's not too soon to begin dressing them. Come and bring the little ones.

THE Chicago Inter-Ocean says the opening proceedings in the second trial of SAM PARKS, Walking Delegate, for extorting money from Tiffany & Co., show that the case stands as it was presented on the first trial. PARKS was the Walking Delegate or Agent of housemiths and decorators employed by the Tiffany Studio Company of New York. On December 31st, 1902, all the men employed on three contracts struck, without warning. There was no complaint as to wages or hours of labor or conditions of work. The Tiffanys asked the Secretary of the Union why the men struck, and the Secretary referred them to SAM PARKS.

BENJAMIN THACKARA, representing the Studio Company, found PARKS. The Assistant District Attorney, in outlining the case before the Jury, told how Mr. THACKARA was received. After the latter had said to PARKS that he came from Tiffany & Co., and that he was trying to find out what the strike was for, this conversation followed:

"Who the hell are you?" responded PARKS.
"I am the outside Superintendent," THACKARA replied.
"Have you authority to settle this matter?" asked PARKS.
"No," said THACKARA.
"Well, I will tell you what it's for. You are fined \$500."
"Why?" asked THACKARA.
"Now, don't ask too many questions," replied PARKS. "But I would like to find out what we are fined for," persisted THACKARA. "I want to make a report to my employers."
"You have no authority to settle this matter," said PARKS. "Tell Tiffany & Co. to come up here or send the main guy. I am not doing business with peanuts."

This was scene one in the Parks drama. In scene two Mr. FRAZEE, the factory Superintendent of Tiffany & Co., goes under instructions to PARKS and asks what the fine of \$500 is for. Then follows:

"Have you any authority to settle this matter?" asked PARKS.
"No, but I want to communicate with some one who has."
"You go to—and send me some one who can do business."

Mr. FRAZEE reported the result of this interview to his employers, and they sent Mr. LOUIS SCHMITT, Treasurer of the Company, to see PARKS. Scene three opens with PARKS lying on a lounge and SCHMITT and FRAZEE in the foreground offering cigars. After preliminaries SCHMITT asked what the fine was for.

"It's an initiation fee," he answered.
"Initiation into what?"
"Into doing business," he said. "All the others have

paid, and by rights I ought to charge you \$1,000."
"But if we pay you this money who will send the men back to work? What reason will be given to them?"
"Say, those men—I've got those—muzzled," replied PARKS. "If one of them should kick I'd fine him \$50 and see to it that he never got another job in town."
"Is this money for the Union or for you?"
"This money is for SAM PARKS. I've done a lot for those ungrateful dogs, and now in the future I am going to look out for SAM PARKS."
"We haven't the money," said Mr. SCHMITT, "and we'll have to get it. We will bring a check."
"If I'd known you didn't have the coin I'd never have wasted time in talking to you. You ought to know better than to offer to bring a check, and, any way, I don't like to have you come together. Send the money by one man," said PARKS.

SCHMITT and FRAZEE returned to Tiffany & Co., got \$200 from the cash drawer and \$300 from a bank, and SCHMITT, Treasurer of the Company, put the money in an envelope and sought MR. PARKS to pay the fine of \$500. Scene four opens with SCHMITT handing PARKS the envelope.

"Count it in my presence," said Mr. SCHMITT, and PARKS counted it.
"What guaranty do I get that the men will go back to work?" asked Mr. SCHMITT, and PARKS said:
"They'll go back all right. All you have is my word. You can go to the Fulley Company and others I have done business with if you want to and ask 'em if it goes."

The men went back to work the next day. Tiffany & Co., having \$100,000 worth of contracts at the mercy of this one man, paid him \$500. If the District Attorney stated the facts on Tuesday, there is no reason why any Union labor man should excuse or defend PARKS or sympathize with him. It appears from the testimony given Wednesday that the District Attorney stated the case very conservatively.

MR. FRAZEE testified that when Mr. SCHMITT asked PARKS if the \$500 went to the labor Union the latter replied:

"It goes to SAM PARKS. I have lost my health working for a lot of ungrateful—who would throw me down in a minute if everything did not go right. I am going away soon for my health, and after a few months you will not hear of SAM PARKS in labor troubles. I've got enough to keep me comfortable during the rest of my life."

LOUIS SCHMITT testified that PARKS said to him that the Company could employ non-Union men if it wanted to. Asked if the Union men would not resist such employment, PARKS said:

"Never mind; I've got these—muzzled, and if any one of them objects I will fine him \$50, and he can't get another job in the city."

Here is a man who, on the sworn testimony of reputable witnesses, was false to the men of his Union and used them simply to extort money from employers. Such a man ought to be expelled from any labor Union—ought to be condemned and repudiated by all labor Unionists and by all citizens. His place is in the Penitentiary.

Political Pickings

DOWN THE DUTCH!

Louisville Herald.

The Dutch have a law in their East India possessions which provides that the testimony of one white man shall be equal to that of seven natives. The Democratic machine in Kentucky has a law whereby in the trial of Republicans for their politics the testimony of one convict against the Republican prisoner is stronger than that of seven honest men, and that no Republican whatever may sit on Juries in such cases.

A GREAT TRUTH.

How It Has Spread From Home to Home in Maysville.

In every part of Maysville; in the homes of the wealthy; in the humble abode of the man of toil 'tis now a well-known fact—a great truth—that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. M. C. Chisholm of 343 East Second street says:
"Mr. Chisholm speaks in high terms of Doan's Kidney Pills. He procured them at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, and their use proved them to be an effective kidney remedy. I have heard others express their appreciation of Doan's Kidney Pills. A medicine which cures kidney trouble is a most desirable one of which to know."

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup; so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At Henry W. Ray's, next door to Postoffice.

Natal bought nearly \$1,000,000 worth of American flour last year, \$166,000 of hardware, \$155,000 of agricultural implements and machinery, \$119,000 of electrical appliances, \$102,000 of boots and shoes and \$615,000 of preserved meats and fish.

The Best Remedy for Croup.

From the Atchison (Kan.) Daily Globe.

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by J. Jas. Wood & Son.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by J. J. Wood & Son, Druggists.

World's Fair Work In Kentucky Is Progressing.

APPLES PLACED IN COLD STORAGE.

Louisville Fish Net Maker Is to Give Demonstration of His Work in Fish and Game Building—Fine Corn Comes From Washington County for the Exhibit.

The very best of fruit shown at the State Fair at Owensboro was shipped to Louisville after the exhibition and placed in cold storage, to be sent to St. Louis next April for Kentucky's horticultural exhibit at the World's Fair. The Kentucky Exhibit Association was able to get some very fine specimens of apples and pears in this way. Several of the county fairs during the fall were also used as a vehicle for gathering excellent fruit. Mr. W. A. Huggins, president of the South Kentucky Fair Association, which held its forty-sixth annual exhibition at Glasgow in September, made arrangements during the show there for a large number of apples from Barren county.

Hon. E. K. Renaker of Berry, in Harrison county, a member of the Live Stock Exhibit Committee of the Kentucky Exhibit Association, is taking deep interest in the live stock exhibit at the World's Fair next year. This is especially true as to jacks and mules. He has asked that stalls be reserved for the stock of both T. B. Adams of Brighton and James M. Terry of Cynthiana. These two gentlemen will send thirty-five jacks and jennets to St. Louis, to be exhibited during the exposition. Mr. Renaker writes that other stock from his end of the state will also be entered in the competition.

John J. Tully of Louisville, famous for his hand-made fish nets, has been invited by Mr. Tarleton H. Bean, chief of the department of Fish and Game at the World's Fair, to make a special display of the product of his factory in Louisville. Chief Bean wants Mr. Tully to make an exhibit wherein much life will be displayed—that is, he wants him to make fish nets in the space to be assigned him. Mr. Tully is considering the matter and will probably go to St. Louis and remain on the grounds throughout the exposition.

A large part of Kentucky's horticultural space at the Louisiana Purchase Exposition will be filled with fruit in glass; that is the smaller fruits, such as plums, cherries and berries, together with peaches. The Horticultural Committee of the Association has furnished glass jars to all who would promise to put up fruit according to formulae offered. Among those who have been most successful in preserving specimens in solution for this display is Mr. G. W. Stroud of Berry Ferry, in Livingston county.

Perhaps no finer corn from Kentucky will be displayed in the agricultural exhibit at the World's Fair next year than that shown by Mr. Robert J. Greer of Bloomfield. He has gathered for the Kentucky Exhibit Association several of his best specimens of yellow corn, known as the "Dugan," together with a number of white ears, known as the "Greer" variety. Five of these ears aggregate nine pounds, one alone weighing two pounds. Three of them are over 12 inches in length.

Editor C. A. Brasher of the Hopkinsville Messenger has brought to the attention of the Kentucky Exhibit Association a lot of very valuable relics in the possession of Mr. W. S. Bom of Fruit Hill, in Christian county. The collection includes a pair of old buck-skin breeches, beaded; a pair of rubber boots worn a hundred years ago; a commission of an officer in the Revolutionary War, and a flint-lock rifle.

While Mr. W. H. Giltner of Eminence is only a member of the Live Stock Committee of the Kentucky Exhibit Association, he has taken deep interest in other departments in which Kentucky will make displays at the World's Fair. This is especially true of agriculture. He cultivated a half-acre each of corn, wheat and rye especially for this exhibit, and will send in the samples in their various stages.

The Boone county exhibit in Kentucky's space at the World's Fair is being looked after by J. W. Kennedy of Union P. O. He is securing samples of all kinds of grain grown in the county and has the assistance of a number of well known farmers in his efforts.

Three cubes, showing the various ways of finishing the stone, one 6 inches, another 8 inches and the third 10 inches, have been sent to the Kentucky Exhibit Association from the quarry of the McWilliams Construction company, at Eddyville, for Kentucky's mineral display at the World's Fair next year.

Two barrels of the finest geniton apples have reached the Kentucky Exhibit Association in Louisville from the orchard of Mr. J. W. Miller, near Mt. Vernon. These will be placed in

cold storage and held there until the World's Fair opens April 30 next year. R. C. Estill, the chairman of the Fayette Agricultural and Horticultural Committee of the Kentucky Exhibit Association, writes that his county has collected a splendid exhibit, especially of wheat and grasses.

W. A. Thornton of Bradfordsville is to furnish a quantity of land stripped blue grass seed, together with orchard grass seed, for Kentucky's agricultural display at the St. Louis Exposition.

INTRAMURAL RAILWAY

For Transportation of World's Fair Visitors.

A SCENIC ROUTE SIX MILES LONG

How the Road is Being Built—One Trestle 2,100 Feet Long—Electricity Furnishes the Motive Power—Seventeen Stations on the Route.

Visitors to the World's Fair next year may take a car on the Intramural railroad at any of the entrances, or at any one of the 17 stations distributed at intervals along the route, and ride six miles, making an entire circuit of the grounds. A general view of all the big exhibit palaces can be obtained from the windows, and one may ride to within easy walking distance of any important building.

The construction of the Intramural is being pushed rapidly toward completion. Five of the 12 miles of track to be laid are completed, and need only the electrical equipment to be ready for operation. Double tracks will be laid the entire length of the road.

The maximum grade of the Intramural is 3 per cent and the maximum curvature 20 degrees, except the loop curves at the terminals, which have a radius of 75 feet. Three hundred men are constructing the trestles, grading and laying the tracks. The road is perfectly graded throughout except for a short distance in the western part of the grounds.

Work is being pushed in the trestle which will carry the road down Government Hill, close to the eastern fence. This trestle is the best engineering feat on the line of the road. It will be 2,100 feet long and will be built on piling of heavy double deck structures, 30 feet high.

A truss bridge, which will carry the road over the World's Fair terminal surface tracks, is progressing rapidly. This bridge has a length of 112 feet, consisting of two 56-foot spans.

The Intramural tracks will be used for transporting building material and exhibits during the pre-exposition period. The tracks throughout are standard gauge, 4 feet 8 1/2 inches, which is the gauge of both the Intramural and steam railway equipment. The construction of the entire line will be heavy enough to run the largest switch engine over it, without danger. Railroad cars will be handled in the tracks even after the wires for the Intramural road are in place.

Installation of the trolley poles is progressing as rapidly as the tracks are laid. The poles are 30 feet long and of white pine. They set six feet in the ground so that the trolley wire will be 18 feet above the top of the rails. The poles are planted between the double tracks and the wires will be supported on brackets attached to them, as in boulevard trolley construction.

The equipment for the Intramural is now being made at the St. Louis car shops. There will be 17 trains, each consisting of two motor cars and a trailer. A few open cars will be used, but most of the cars will be closed. They will be handsomely equipped with all modern improvements, and will be about the size of the street

BULBS FILL FIFTEEN ACRES.

Cannas, Caladiums, Dahlias and Tuberose Form a Beautiful World's Fair Feature.

Fifty thousand cannas, with their gorgeous array of colors; great caladiums, or "elephant's ears," with their mammoth foliage; modest dahlias, with their daintily colored petals, and beds of tuberose, with their wax-like flowers and intense fragrance, combine to make a floral exhibit that will cover sixteen acres of ground on the World's Fair site. The plants will not be seen in one mammoth bed or tract, but will be scattered in well modeled groups over the northern and eastern slopes of Agricultural Hill.

Many thousand choice tuberose bulbs, planted in beds in the six-acre World's Fair garden, will next spring send up thrifty blooming spikes, and the fragrance of the blossoms, almost overpowering when breathed alone, will mingle with the more delicate perfume of the rose.

Commencing with the early summer there will be a profusion of blossoms and fresh supplies will constantly succeed one another until frost comes. The caladiums are grown mainly for their foliage, as the blossom is of little value. A group of these almost tropical plants will be in the corner of the terrace 10 feet high and a quarter of a mile long that skirts the mammoth Palace of Agriculture on the eastern side. This terrace, straight as an arrow for nearly the full length of the giant structure, makes a beautiful curve near the southern end and forms a bank for some of the beautiful artificial lakes between the Agriculture and Horticultural buildings. The caladiums thrive near the water and they will attain perfection.

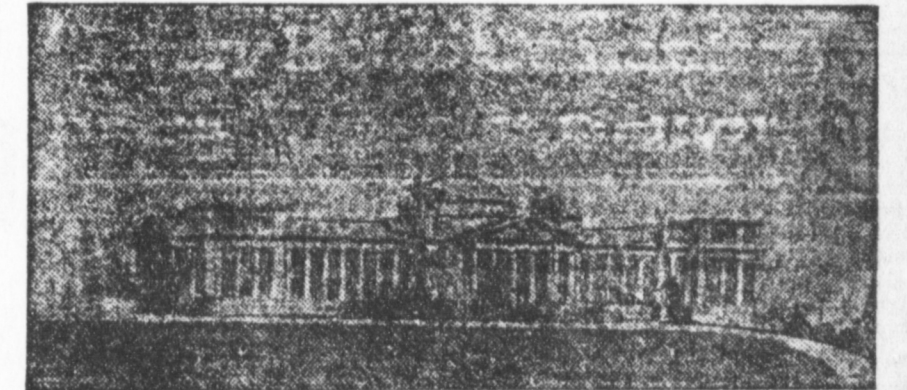

That the dahlia may no longer be considered a "back-yard" flower will be demonstrated by the prominent position allotted to it in the World's Fair garden, by far the largest and most pretentious ever seen at any international exposition. Time was when the dahlia was small and insignificant, but florists have taken it from that class and have developed it so that it ranks with the stately chrysanthemum. The petals that radiate in a single row from the solidly colored corolla, take on all the tints of the peony or rose.

Until recently the bulbs for all these flowers were imported, and this monster exhibit will demonstrate the progress in the industry of growing, flowering and ornamental bulbs in this country.

NEW YORK BUILDING.

The site of the New York State building is one of the best on the grounds. Situated on the State plaza, with the Illinois and Iowa buildings, both of architectural importance, for neighbors, and overlooking Forest Park, it has invited special effort from the architect, and he has produced a design of marked simplicity and dignity consonant with the traditions of the Empire State. The land falls off about 25 feet on the easterly end, and it has been taken advantage of by the architect to place a large fountain in the facade of the podium or terrace. This fountain typifies the Mississippi river in the form of a river god controlling the sea.

The building proper will stand on a podium enriched with balustrades and vases. It is to be colonial in design and detail, and surmounted with a low dome. There will be a large

NEW YORK STATE BUILDING.

hall 60 feet square running the full height, arched and domed in the Roman manner, with galleries around the second story. To the right is to be a large assembly hall 50x60 feet, to be used on state occasions. It is really a part of the Grand Hall. Small assembly rooms will be included in the end of this wing. To the left of the hall are to be waiting and writing rooms. The whole first floor will be as one room, however, and with its colonnades and arches will present interesting vistas.

The second story will have suitable rooms for the commission, the secretary and general offices. The hall and all of the appointments are most generous, and are to be treated in a simple, quiet manner. In fact, no effort will be made in the way of elaborate decorations, but the beauty of the whole will depend entirely on carefully studied detail and correct architectural lines. In the large hall, however, it is proposed to place four large paintings in the lunettes symbolizing the four original ownerships, the Indians in one, Spanish, French and Americans in the others.

The four pendentives will be filled with pictures emblematic of the four original states included in the purchase, and their products and manufactures. The external sculpture, while not extensive, will receive careful attention. The fountain already described, and the four Quadriga flanking the dome, will be modeled by representative sculptors and will typify the march of progress. The building will be built of staff in the manner of exhibition buildings, and located as it is in a park and with beautiful surroundings, will do credit to the state.

cars used in large cities. Each car will have four 40 horse-power motors connected up on the "multiple unit control system." A 500-volt current will be used. The road will be operated in sections, so that the current may be turned off in one section without impairing the operation on the rest of the road.

An interesting sight is the novel time and labor-saving method employed in ballasting the road bed with cinders. A large cinder dump car used by the street railways of the city has been run on to a flat car, on which rails have been laid. This is done by running a flat car close to an embankment the exact height of the car. On the embankment a spur of the street railway tracks is laid with a trolley wire extending a car's length beyond it. The spur and the rails on the flat car make perfect connection, enabling the electric car to be installed with ease and safety. To the flat car has been coupled a locomotive. As the car is drawn slowly over the system the cinders are distributed along the tracks where they are afterwards leveled. It is estimated that \$10 is saved on each carload of cinders dumped, or about \$2,500 in all. It takes about 15 minutes to distribute a carload by this method, where by the old way it took four hours. It was impossible to run the electric car over the Intramural tracks on account of the difference in the gauge.

The Kentucky Experiment Station at Lexington is to make an agricultural display in Kentucky's space at the World's Fair covering 400 square feet. Professors Garman and Harper are looking especially after these exhibits.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with female weakness for eight years; and suffered more than I can tell," writes Mrs. Gust. Moser of Owando, Deerlodge Co., Mont. "My disposition was affected to such an extent that to say a pleasant word to anyone was almost impossible."

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and also followed the advice given in the Common Sense Medical Adviser."

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Doctor Pierce enough for his kind letters to me."

Womanly diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription.

After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for woman's ills, establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

In four lines—cotton goods, kerosene, lumber and flour—American goods will be met in Manchuria. Russia has every advantage in flour and lumber and will soon be our most active rival in these lines in the general trade in China. Kerosene Russia can produce cheaper, and sell cheaper, although the product is inferior in quality, but this is not so serious a drawback for the Chinese trade. In cotton goods, while her trade is growing, it is handicapped by inability to meet American prices.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. Your Wife

can be provided with an annual income for life, in event of your death, at less cost than you can make the same provision for your children.

The low rate makes very attractive this form of contract, devised and introduced by The Mutual Life Insurance Company of New York.

On August 7, 1896, a young business man of New York took out Policy No. 120574 in favor of his wife. He paid three premiums of \$500.00 and in September, 1903, he died. The Company at once paid his widow \$1,500.00, and will continue to pay her that amount annually so long as she lives.

In writing for terms, state the amount of annual income you would like to provide for your wife, the amount of cash you would like returned and give the ages of both.

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK,
RICHARD A. MCWADY, President.

Cuba, situated within three days of leading ports of the United States, blessed with a climate and soil of an exceptional character for the cultivation of oranges, offers a wide field in which to obtain great results. If in the years 1892 and 1893 Cuba exported to the United States bananas to the value of \$1,500,000, it will not be difficult to equal this amount again or even to surpass it. The British West Indies, which in the same period sent only \$1,300,000 worth, sends today of the same fruit \$3,000,000 worth.

WALLPAPER

Perfect satisfaction in buying Wallpapers can only be obtained where the assortment is large, the designs are varied and the prices are right. Until the last of November we offer special inducements to wallpaper buyers in order to make room for our spring stock, which is now arriving.

'Stepped Against a Hot Stove.
A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by J. Jas. Wood & Son.
